THE GROWTH ENGINE

~80% of global population growth and
~50% of GDP growth will come from
Africa, India, and Southeast Asia.

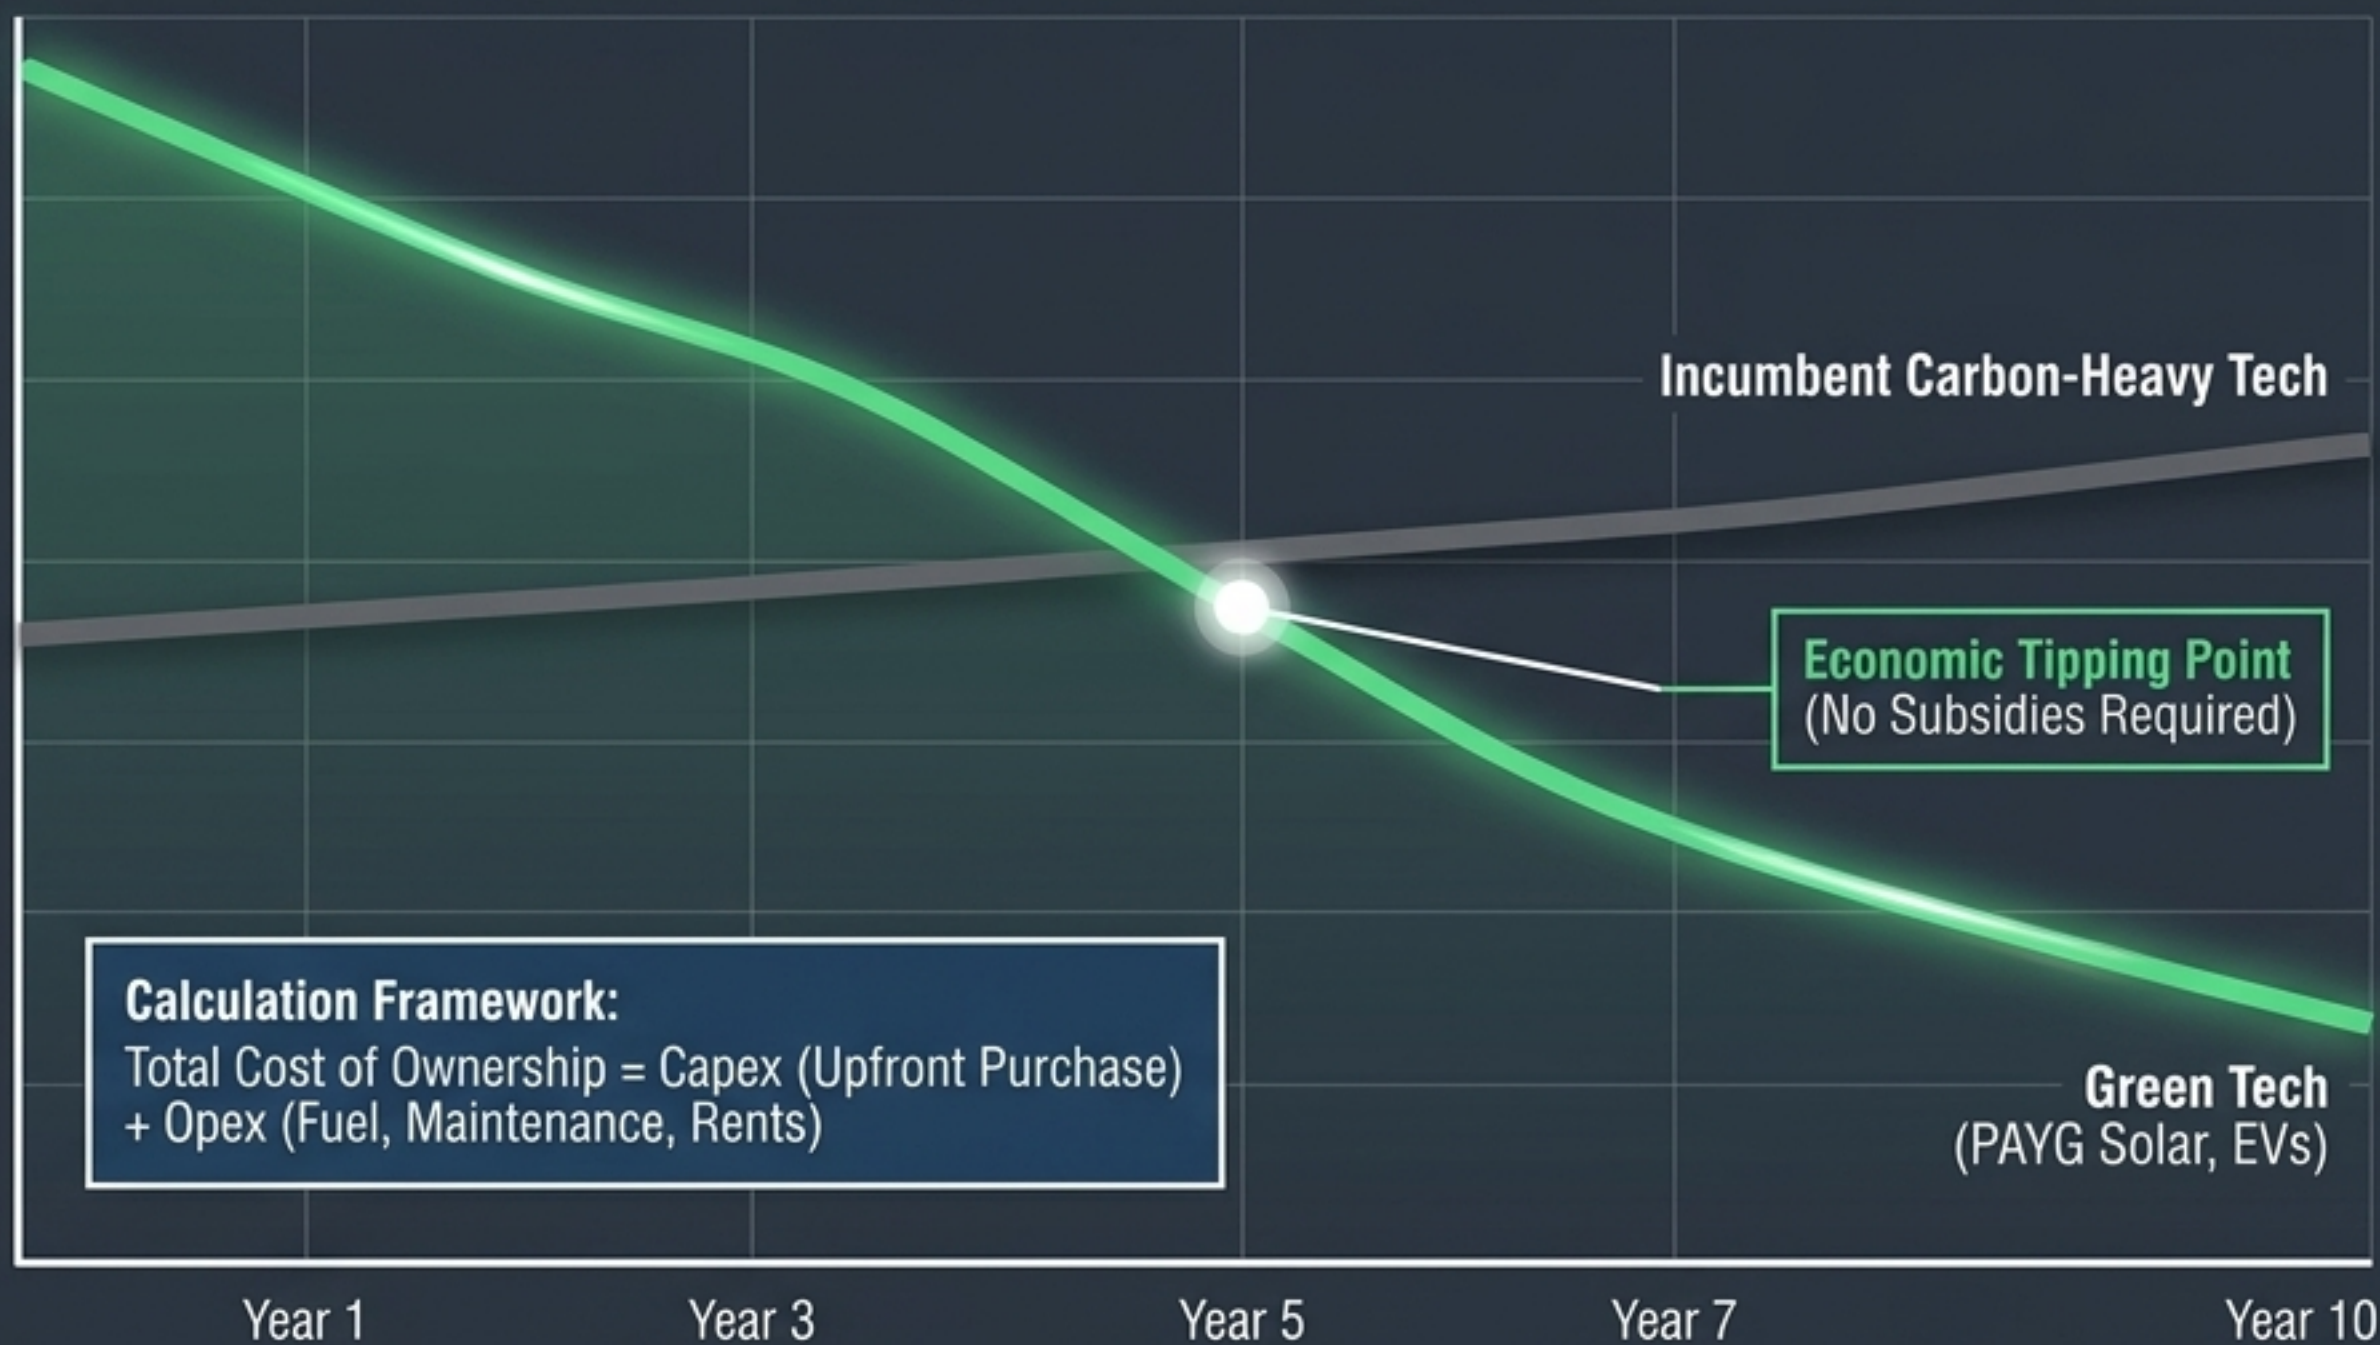

THE EMISSIONS THREAT

KEY INSIGHT: WITHOUT A GREEN TRANSITION, EMERGING MARKETS COULD FOR 73% OF GLOBAL EMISSIONS BY 2050, DWARFING OECD CLIMATE ACTION

THE GREEN DISCOUNT TIPPING POINT

DATA PROOF POINT

5 tCO₂e/person

Achieving a Green Leap could reduce per capita emissions of high-earning consumers to 5tCO₂e (lower than the 7tCO₂e currently produced by lower-middle-income brackets).

MOBILITY

\$1.3 Trillion capital absorption potential by 2030 in emerging Asia (2-/3-wheelers and battery swapping).

ENERGY

Transitioning 6.5 million **African diesel generators** to distributed solar and smart grids.

5% Funded

\$330B
/ Year Gap

BUILT ENVIRONMENT

Deploying **high-efficiency cooling and housing materials** to replace polluting wood stoves.

AGRICULTURE & FOOD

Scaling smart farming to replace over-used fertilizers and inefficient biomass practices.

- **EIB & IFC:** DFI Standard-Setters & De-risking
- **CGAP:** Research Partner for Inclusive Green Growth

Strategic Thesis:

Ensuring a 'Just Transition' where green products are cost-competitive today, avoiding stranded assets in emerging economies."

CAPITAL EVOLUTION TIMELINE

IMPACT & GEOGRAPHIC REACH

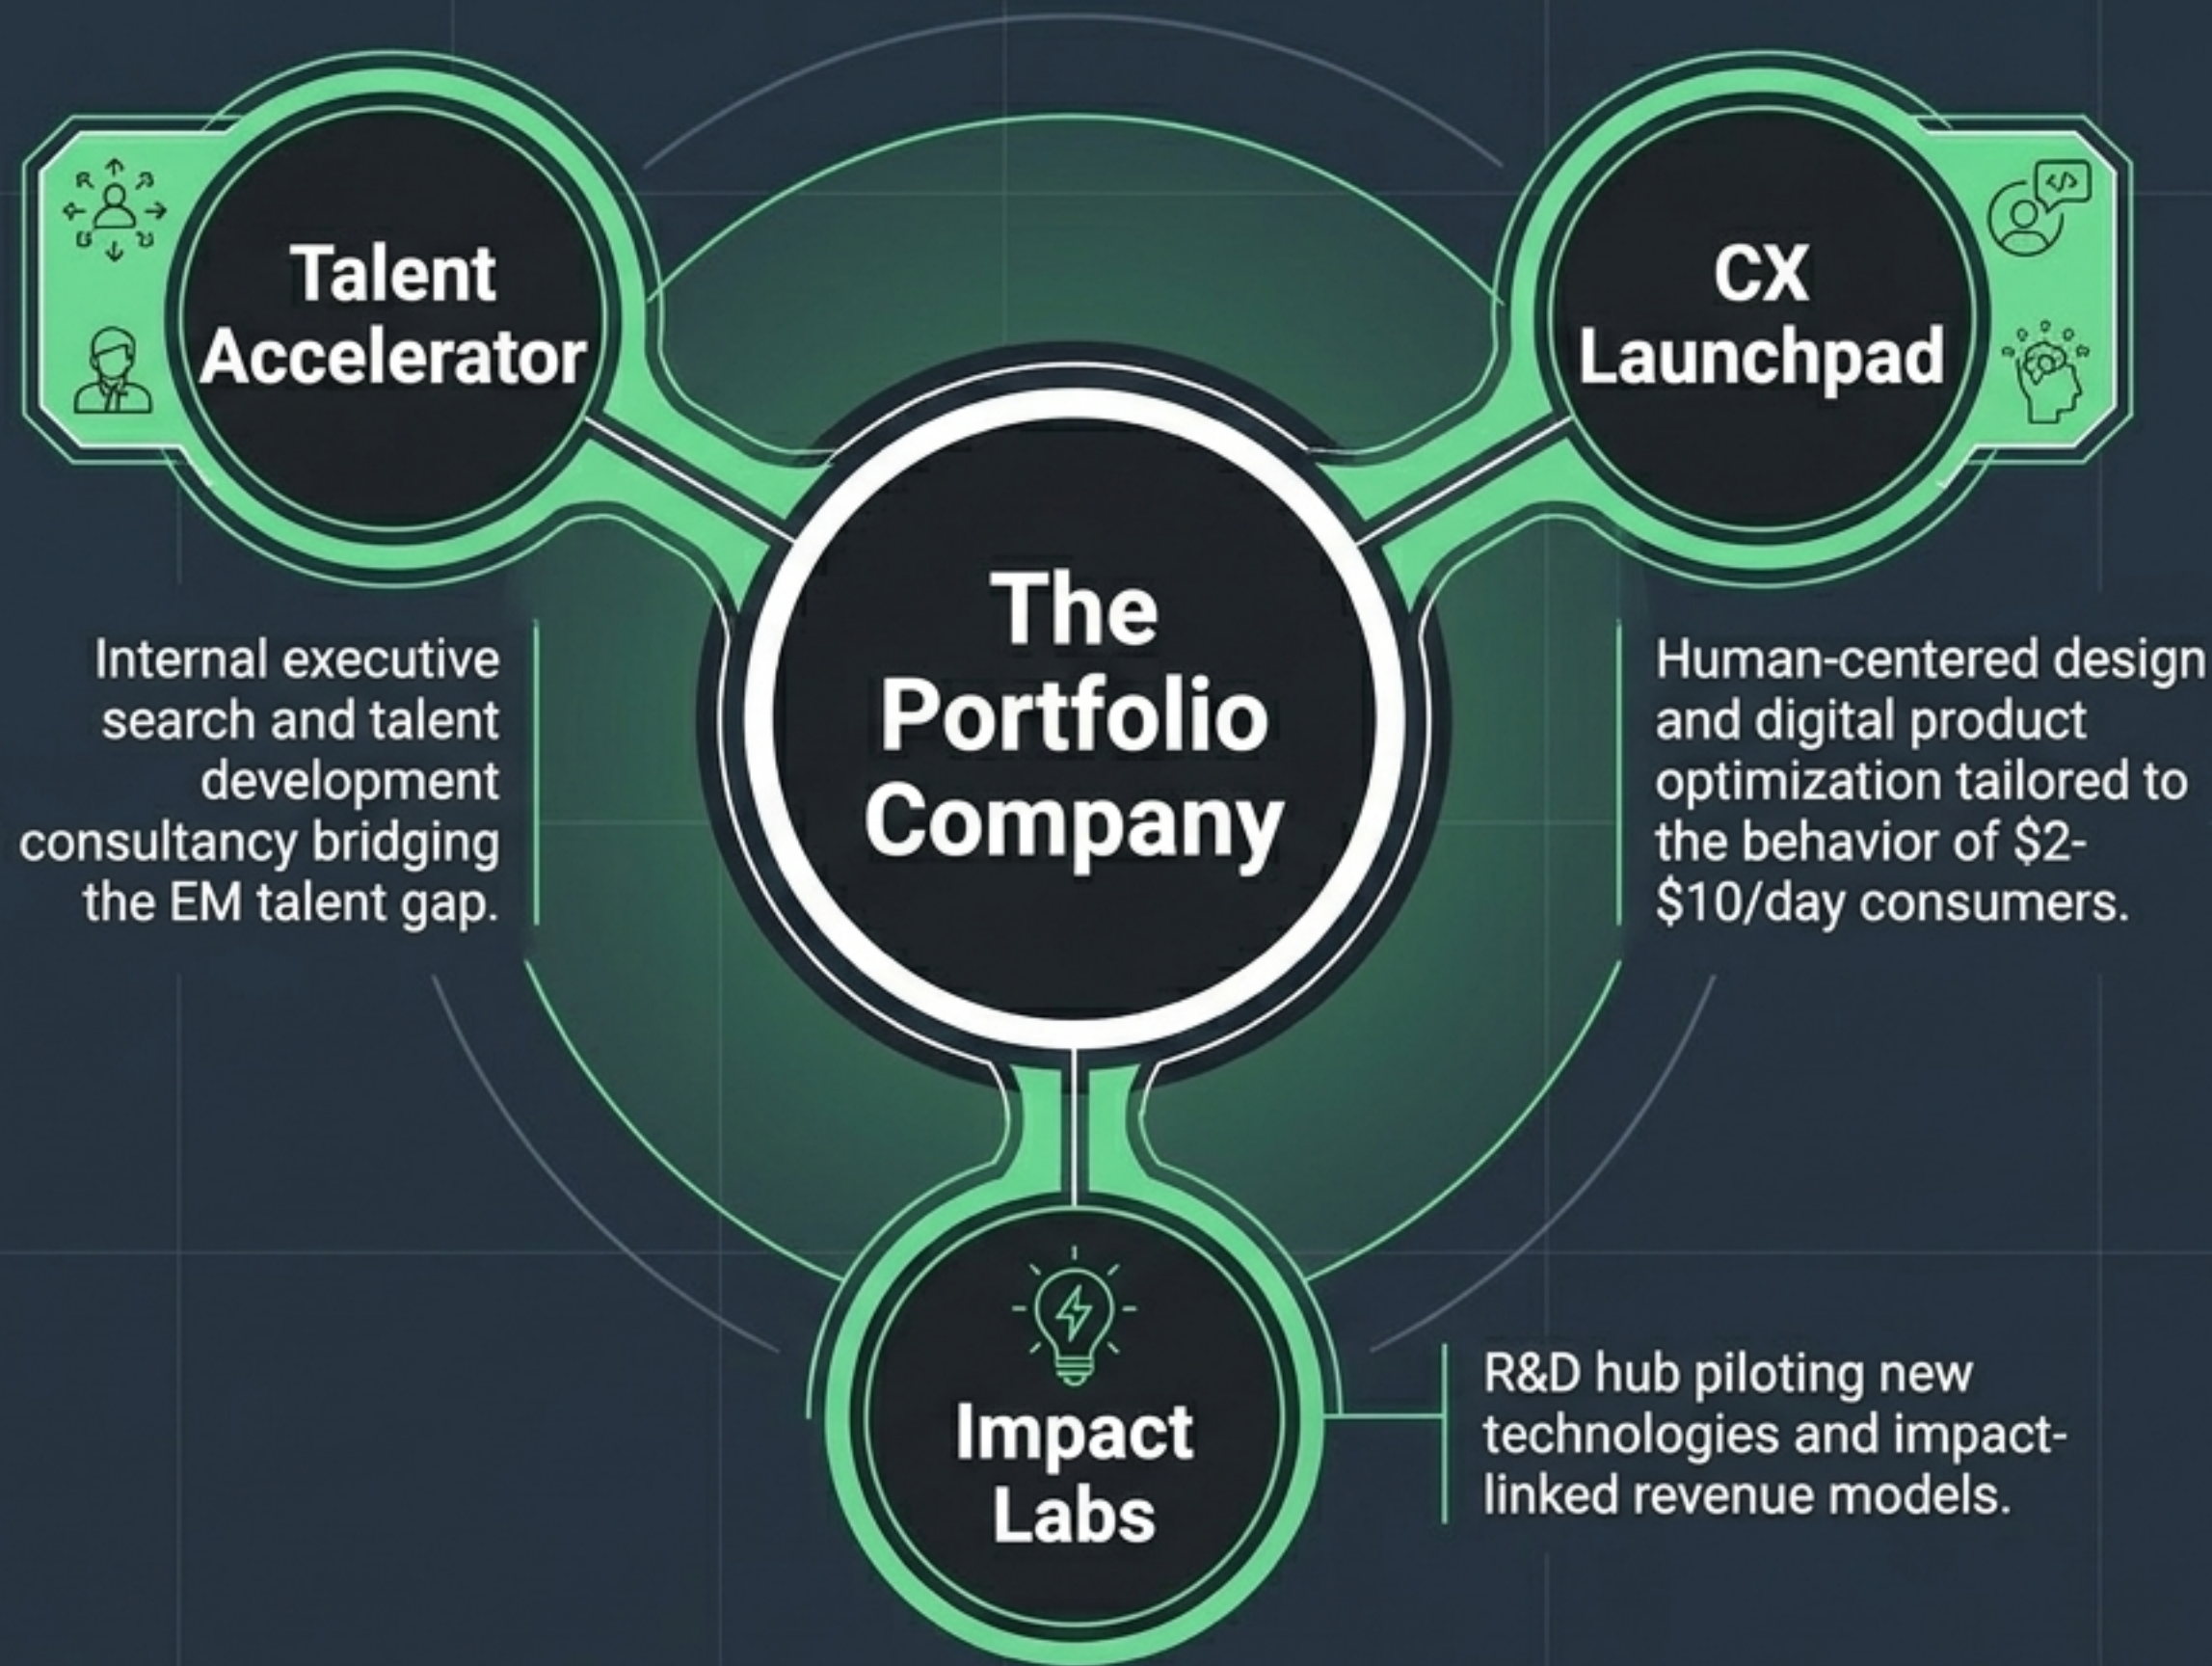

EXIT VALIDATION

Northern Arc Capital IPO (India)

- Demonstrated **3x return** on an impact-heavy asset in public markets.

THE OPERATIONAL ENGINE

LeapFrog is not a passive investor.

This integrated value creation ecosystem is a core revenue driver that routinely wins deals against traditional PE firms by offering operational "leapfrogging".

IMPACT VERIFICATION PIPELINE

GATING & INVESTMENT

Deals are rejected entirely if high-scale impact is not clearly demonstrable.

PROPRIETARY DASHBOARD (FIIRM)

Financial, Impact, Innovation, and Risk Management KPIs tracked live.

Methodology:

The "Household Multiplier"
(Active Customers × Local Household Size)

INDUSTRY ALIGNMENT

Mapping FIIRM data to standard benchmarks:

- ✱ IRIS+ Metrics
- 🌐 UN SDGs (1, 3, 5, 7)
- 👤 The 2X Challenge (Gender Equity)

INSTITUTIONAL VERIFICATION

STRATEGIC PRIORITIES (2024-2026)

PRIORITY 1: SCALING THE GREEN LEAP

Deploying the \$500M+ Climate Fund to definitively prove emerging market green-tech viability.

PRIORITY 2: THE AFRICA 40% MANDATE

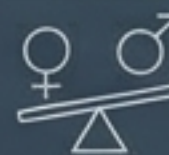

Fulfilling Fund IV requirements by actively re-balancing with high-quality healthcare and fintech deals across Sub-Saharan Africa.

PRIORITY 3: AI INTEGRATION & DIGITAL HEALTH

Filling the 'diagnosis gap' (e.g., Redcliffe Labs, MedGenome) by mandating **AI deployment** across new deals.

PRIORITY 4: GENDER EQUITY

Ensuring 100% of Fund IV investments meet the **rigorous 2X Challenge criteria** for female leadership and products.
